**To Whom this Concerns:**

My name is Larry Thomas, Jr. an Educational Program Specialist at Georgia State University – Dunwoody campus. Ms. L.A. Roberts came to speak to the students of the TRiO Student Support Services Program. She had many of my student on the edge of their seats wanting to understand how to overcome their fears to become successful in life. A few of them who were very shy about talking in front of groups of people have gone on to be leaders in the student life department speaking and giving tours to future students.

Ms. Roberts came back to TRiO SSS to speak with my students. Once again, she gave a great presentation and the students were very attentive to her words. This time as requested Ms. Roberts was able to do some private consulting sessions with my students. Each student who attended the private consulting session came out with a greater sense of self gratification. Many of whom have brought up their grade point average and have gone on to graduate with their associate degrees. Many of my students credit their conversations with Ms. Roberts for their ability to overcome the trials and tribulations of being a student in college.

Ms. Roberts has been an inspiration not only to our students but the TRiO SSS staff as well. We would love to have her come back and inspire our new cohort of students. I also highly recommend her consulting and speaking services. If you have any further questions and would like to speak with me my information is located below.

Kindly,
